

PHP DEVELOPER INTERNSHIP

OFFICE LOCATION: KAUNAS, LITHUANIA COMPANY

Xplicity is established in 2005 to develop B2B applications for our clients. The main company's competencies are unlocked through software development, computer systems designing and programming. We help both non-technical clients and IT companies. One of the company's services branch is oriented towards marine technology companies to help them develop and maintain innovative marine solutions. Being relatively small we are flexible, dynamic company where each of us can make a strong and meaningful impact for the company's success. At Xplicity we appreciate initiatives, ideas, communication, friendship and trust. We are offering an internship to build a real system from scratch together with experienced mentor.

IDEAL CANDIDATE

- Clear ambition to improve your PHP knowledge;
- Clear motivation to get the most out of this internship and continue to grow as a software engineer;
- Willingness to learn the quality standards;
- Willingness to ask questions;
- Ability to express oneself in English.

COMPANY OFFERS

- Experienced mentor;
- Convenient office with both open space and separate team's rooms;
- Possibility to grow within the company and get the job offer after an internship.

APPLICATION

Please send us your resume in English (preferably in PDF) to hr@xplicity.com including "PHP INTERNSHIP" in the subject line. Confidentiality is guaranteed. If you have any questions regarding this opportunity, you can call us at +370 65746447

NOTE

Please consider carefully if you can fit our criteria and only then send your resume. Once we received it, we promise to look at it carefully and invite you to have a talk, provide you the best possible interview experience and further follow-up. We seek for fruitful collaboration and if your skills and competence will not match the position today, we will come up with a clear advice, guideline on how to proceed with your career path further.
